

GALAXIS

**DAIRY
CATTLE**

Contains a source of live (viable) naturally occurring microorganisms for the further manufacture of Dairy Cattle Feed.

GUARANTEED ANALYSIS

<i>Clostridium beijerinckii</i> , minimum	2,000,000 CFU*/g
<i>Pichia kudriavzevii</i> , minimum	20,000,000 CFU*/g
<i>Butyrivibrio fibrisolvens</i> , minimum	20,000,000 CFU*/g
<i>Ruminococcus bovis</i> , minimum	20,000,000 CFU*/g

*Colony-Forming Units

INGREDIENT STATEMENT

Calcium Carbonate, Clinoptilolite of sedimentary origin, Dried *Pichia kudriavzevii* Fermentation Product, Dried *Clostridium beijerinckii* Fermentation Product, Dried *Butyrivibrio fibrisolvens* Fermentation Product, Dried *Ruminococcus bovis* Fermentation Product

DIRECTIONS FOR USE

- | | | | |
|----------|---|----------|----------------|
| 1 | Add 5 grams of GALAXIS Frontier per cow to the daily ration | 2 | Mix thoroughly |
|----------|---|----------|----------------|

RECOMMENDED STORAGE

Store in original closed container in cool, dry area <113°F (45°C).
Avoid direct sunlight. Once opened, contents of the bag should be consumed within 72 hours.
